

MILAN PANJA

Computer Science Graduate · Full Stack Web Developer (Python / Django)

Email: milanpanja731@gmail.com | Mobile: +91 70295 74899 | GitHub: github.com/milanpanja

Address: Vill. Panpara, PO Balpai, PS Sabang, Dist. Paschim Medinipur, West Bengal – 721155

SKILLS

Languages

Python, JavaScript, HTML5, CSS3

Frameworks

Django, Flask, Django REST Framework

Databases

PostgreSQL, SQLite

Web

REST APIs, CRUD, JSON, Responsive Design

Tools

Git, GitHub, VS Code, Postman, pgAdmin

OS

Ubuntu Linux, Windows

SOFT SKILLS

- Communication Skills
- Leadership & Team Collaboration
- Time Management
- Critical Thinking
- Problem Solving
- Adaptability & Continuous Learning

EDUCATION

B.Tech, Computer Science & Engineering

Swami Vivekananda University
Expected 2026 · CGPA 8.0

Diploma, Computer Science & Technology

Swami Vivekananda Institute of Science & Technology
2023 · CGPA 7.9

Higher Secondary (WBCHSE)

Karkai Vivekananda Vidyapith
2020 · 74.00%

LANGUAGES KNOWN

English, Hindi, Bengali

PERSONAL DETAILS

Father's Name: Biren Panja
Date of Birth: 29 May 2001
Sex: Male

HOBBIES

Reading · Listening to Music · Playing

CAREER OBJECTIVE

Highly motivated Computer Science graduate trained in full-stack web development with Python, Django, Django REST Framework, PostgreSQL, SQLite, HTML, CSS, JavaScript, Tailwind CSS, Git, and Linux. Seeking an entry-level software development role to apply technical and problem-solving skills toward building scalable web applications, while continuously learning new technologies and delivering high-quality solutions.

PROJECTS

NexCart — E-Commerce Web Application

Python · Django · Django REST Framework · SQLite · JavaScript · HTML · CSS · JWT

- Built a full-stack e-commerce platform with product listing, shopping cart, order management, and user dashboard.
- Implemented JWT-based authentication with role-based access control (Admin and User roles).
- Designed RESTful APIs using Django REST Framework with 19 endpoints for products, cart, orders, and user management.
- Created Admin panel with revenue analytics, product CRUD, order status management, and low stock alerts.
- Integrated AI shopping assistant using Claude API with context-aware, multi-turn conversation support.
- Developed responsive Single Page Application (SPA) using vanilla JavaScript with client-side routing.
- Used SQLite3 database with 7 relational models — Product, Category, Order, OrderItem, Cart, CartItem, UserProfile.

Learning Nest Application

NestJS · TypeScript · PostgreSQL · TypeORM

- Backend application for managing student data with structured modules and entity relationships.
- Designed Student entity with one-to-many (Address) and one-to-one (Identity) relationships.
- Used TypeORM for ORM mapping, migrations, and database synchronization.
- Implemented CRUD APIs for student management with validation via class-validator and DTOs.
- Integrated error handling, service-based architecture, and modular folder structure.

Finance Dashboard (Django)

Python · Django · Django REST Framework · PostgreSQL · Tailwind CSS

- Role-based finance dashboard with Admin, Analyst, and Viewer roles.
- Secure authentication and authorization; REST APIs for user management and financial record CRUD.
- Responsive UI built with HTML, JavaScript, and Tailwind CSS.
- PostgreSQL integration with Git/GitHub version control; developed and tested on Ubuntu Linux.

TECHNICAL TRAINING & CERTIFICATION

- Full Stack Web Development Training — EJOBINDIA, Kolkata
- Python with Web Development Certification — Swami Vivekananda University

DECLARATION

I hereby declare that the above information is true to the best of my knowledge.
